

Electronics Recycling Report Card

Grading for: **JVC**

Summary: JVC is owned by the Victor Company of Japan. It used to be a subsidiary of Panasonic, but in 2008, Victor Company merged with Kenwood to create JVC/Kenwood Holdings Inc. Panasonic holds a controlling interest.

Category	Possible Points	Points Earned	Details
Scope of U.S. takeback recycling program	42		
Free, convenient, national takeback program Does the company offer free convenient national takeback and recycling of their branded products for individual consumers? - Convenience requires ongoing physical collection sites as well as mailback options. - Evaluates efforts made in states with no e-waste laws or laws with weak requirements	13	0	Only provides recycling in states that require it by law, in partnership with MRM.
Significant collection volumes Does takeback program have significant collection volumes, and does the company have high volume even in states where the law does not require it?	16	0	No information available.
Transparent reporting Is the company transparent in reporting on collection volumes, including where they are coming from?	7	0	Only reporting on collection volumes in Japan and EU, nothing reported for US.
Free not just for consumers Does company offer free national takeback recycling for other customers – not just individual consumers?	1	0	JVC does not, but MRM does.
Takeback other brands Does program take products from other brands for free or a nominal charge?	1	0	JVC does not, but MRM does.
Encourage reuse Does the program encourage responsible reuse of electronic equipment and parts?	4	0	
SUBTOTAL	42	0	
Does program provide responsible recycling?	36		
Are recycling vendors e-Stewards? Does company only use e-Stewards as vendors for all of its consumer recycling, including trade in/buy back programs?	22	3	Limited relationship with MRM Recycling, which does business with some e-Stewards.

Category	Possible Points	Points Earned	Details
For more info, see www.e-stewards.org			
Other public commitment to responsible recycling If the company is not using e-Stewards, does it have another public commitment to not export toxic e-waste* to developing countries, use prison labor or landfill/incinerate toxic e-waste?*	Up to 5 of the 22 pts above	0	None published.
Publish vendor requirements Does company publish its full recycling standards (vendor requirements) on company website?	4	0	None published.
Disclosure of recycling vendors Does company disclose all of the electronics recycling and refurbishing vendors, used by the company and its trade-in partners, on company website?	6	0	None published.
Disclosure on business takeback streams Do the four disclosures above apply to business streams? While this report card is aimed at consumer streams, company takeback programs for businesses (asset recovery, business trade-ins, lease returns, etc.) comprise a huge volume of some manufacturers' takeback programs.	4	0	None published.
SUBTOTAL	36	3	
Other	12		
Disclosure of what is closed loop recycled Does company disclose information about what streams from its takeback program are closed loop recycled or make a commitment to move in this direction? Closed loop recycling means recycling material streams back into other products the company makes or products of equal value (not down-cycling).	2	0	None published.
Disclosure of how much is closed loop recycled Does company report on the volume of material that is recycled into closed loop recycling?	5	0	No.
Recycling info easy to find? Is it easy to find recycling information on company website?	3	1	Information under "about" tab, small amount of navigation required -- JVC refers customers to the MRM website for recycling information.
Recyclable Packaging Does the company ship products using packaging made from materials that are typically easily recyclable for most U.S. households (cardboard, but not Styrofoam/ polystyrene)?	2	0	Some products shipped using recyclable packaging, but not all.

Category	Possible Points	Points Earned	Details
SUBTOTAL	12	1	
Public policy	10		
Does company have a statement in support of strong state legislation for producer takeback, with drivers for manufacturers to collect high volumes, and does company actively support these bills in the States?	5	0	No policy statements.
Does the company have a statement of support for federal legislation to ban the export of toxic electronic waste to developing nations?	5	0	No policy statements.
SUBTOTAL	10	0	
TOTAL SCORE	100	4
